

Organic, ECOCERT and Pharmaceutical Grade Ingredients | Elegant Natural Solutions

As the natural trend continues to grow, more and more consumers are looking to cosmetics manufacturers for natural and organic products.

At TRI-K, we have embraced the natural trend. We offer a wide range of certified organic oils and many of our products have been certified organic. We are always working to expand our range of natural products.

ECOCERT Certified

Trade Name	Description	INCI	Use Level
Biobase® S	Our most basic and popular self-emulsifying system for a wide range of formulations. ECOCERT certified.	Glyceryl Stearate, Cetearyl Alcohol, Sodium Stearoyl Lactylate	2 - 5%
D-Gamma Tocopherol	Inhibits melanin synthesis to lighten and brighten skin; provides anti-inflammatory and anti-oxidant protection. ECOCERT certified.	d-Gamma Tocopherol 90	1%

USP/NF Available Upon Request

Trade Name	Description	INCI	Use Level
Allantoin (USP)	An exceptional healing, soothing and moisturizing agent.	Allantoin	0.1 - 2%
DL Panthenol (USP/FCC)	Well-known hair conditioner that restores shine and luster to dull hair while improving tensile strength. On skin, it acts as an emollient and moisturizer.	DL Panthenol	0.1 - 1%
Potassium Sorbate FCC (FCC/NF)	An effective cosmetic preservative, particularly against yeasts and molds.	Potassium Sorbate	0.1 - 0.3%
Trisept™ B (USP/NF/BP)	A widely used, effectual, cost effective cosmetic preservative.	Butyl Paraben	Up to 0.02%

Organic, ECOCERT and Pharmaceutical Grade Ingredients | Elegant Natural Solutions
